```
</group>
```

II. CONFIGURACION DE LAS REGLAS

Nos dirigimos a server management

Entramos en el apartado de rules para modificar las reglas locales

FACULTAD DE INGENIERÍA Y CIENCIAS APLICADAS

The screenshot shows the Wazuh Rules interface in a web browser. The page title is "Rules files (168)". Below the title, there are links for "Manage rules", "Add new rules file", "Import files", "Refresh", and "Export formatted". A search bar is present. A table lists the rules files with columns for "File" and "Path". The "File" column shows the filename, and the "Path" column shows the path. A tooltip "Edit local_rules.xml content" is visible over the "local_rules.xml" row. The table lists several rules files, including "local_rules.xml", "0998-aws-security-hub-rules.xml", "0997-maltiverse_rules.xml", "0995-microsoft-graph_rules.xml", "0990-amazon-security-lake_rules.xml", "0960-macos_rules.xml", "0955-WEF-baseline_rules.xml", "0950-sysmon_id_20.xml", "0945-sysmon_id_10.xml", and "0935-cloudflare-waf_rules.xml". The "Path" column shows paths like "etc/rules" and "ruleset/rules". At the bottom, there is a "Rows per page: 10" dropdown and a pagination bar showing "1 2 3 4 5 ... 17 >".

File	Path
local_rules.xml	etc/rules
0998-aws-security-hub-rules.xml	ruleset/rules
0997-maltiverse_rules.xml	ruleset/rules
0995-microsoft-graph_rules.xml	ruleset/rules
0990-amazon-security-lake_rules.xml	ruleset/rules
0960-macos_rules.xml	ruleset/rules
0955-WEF-baseline_rules.xml	ruleset/rules
0950-sysmon_id_20.xml	ruleset/rules
0945-sysmon_id_10.xml	ruleset/rules
0935-cloudflare-waf_rules.xml	ruleset/rules

Editamos el local rules de wazuh

The screenshot shows the Wazuh Rules interface in a web browser, displaying the content of the "local_rules.xml" file. The page title is "local_rules.xml". There are links for "Ruleset Test" and "Save". The XML content is displayed in a code editor. The XML structure is as follows:

```
<?xml version="1.0" encoding="UTF-8"?>
<group name="syscheck, mitre_t1105, mitre_t1222, custom_alerts">
  <rule id="100001" level="12">
    <if_sid>554</if_sid>
    <field name="syscheck.path" type="pcre2">*/etc/|*/tmp/|*/var/tmp/|*/dev/shm/</field>
    <description>T1105: Posible transferencia de herramientas (Ingress Tool Transfer). Archivo creado en directorio critico.</description>
    <mitre>
      <id>T1105</id>
    </mitre>
    <group>syscheck_file_creation,</group>
  </rule>
  <rule id="100002" level="12">
    <if_sid>558, 552</if_sid>
    <field name="syscheck.path" type="pcre2">*/etc/|*/tmp/|*/var/tmp/|*/dev/shm/</field>
    <description>T1222: Modificación de permisos/atributos en un archivo dentro de un directorio critico.</description>
    <mitre>
      <id>T1222</id>
    </mitre>
    <group>syscheck_file_modification,</group>
  </rule>
  <rule id="100003" level="14" timeframe="60">
